Temporary_add_to_version_control

My first R Markdown file.Rmd

```
1 ---
2 title: "First R Markdown file"
3 author: "Me"
4 date: "11/17/2020"
5 output: word_document
6 ---
7
8 {r setup, include=FALSE}
9 knitr::opts_chunk$set(echo = TRUE)
10
11
12 ## R Markdown
13
14 This is an R Markdown document. Markdown is a simple
15 formatting syntax for authoring HTML, PDF, and MS
16 word documents. For more details on using R Markdown
17 see <http://rmarkdown.rstudio.com>.
18
19 When you click the Knit button a document will be
20 generated that includes both content as well as the
21 output of any embedded R code chunks within the
22 document. You can embed an R code chunk like this:
```

1:1 First R Markdown file R Markdown

Environment History Connections Git Tutorial

To Console To Source

```
install.packages(rmarkdown )
install.packages(rmarkdown)
install.packages("rmarkdown")
knitr::opts_chunk$set(echo = TRUE)
plot(pressure)
```
